## PROFILE SUMMARY

I am a highly skilled and experienced Full Stack Developer with a strong focus on Laravel (PHP) and Flutter. My expertise spans across frontend and backend development, ensuring seamless integration and functionality of web and mobile applications. With a robust background in API integration, real-time data handling, and creating dynamic, user-friendly interfaces, I am adept at delivering high-quality solutions that meet both client and end-user needs.

## EXPERIENCE

### Mobility Intelligence Software's (1 Year Expr)

I am a motivated and detail-oriented Full Stack Developer with six months of hands-on experience in developing and maintaining web and mobile applications using Laravel (PHP) and Flutter. My skills include backend development with Laravel, frontend development using JavaScript and React, and creating cross-platform mobile applications with Flutter. I have successfully integrated third-party APIs, implemented payment systems, managed spatial data with GIS mapping using Leaflet and Google Map and SMS integrated System. My early career has been marked by a strong enthusiasm for learning and applying new technologies, allowing me to effectively contribute to projects and solve real-world problems.

## PROJECTS

### Learning Management System

Laravel (PHP)

- Developed features for course management, student enrolment, and progress tracking.
- Implemented secure user authentication and role-based access control and Admin Management.
- Integrated payment gateways to enable course purchases and subscriptions.

### Super Bidding Taxi-Delivery

Laravel (PHP)

- Backend development with API integration and payment systems
- Management of spatial data with GIS mapping
- Integration of SMS systems for enhanced communication
- Real-time chatting functionality

## CERTIFICATIONS

- Wipro Java Full Stack
- AWS Cloud Foundations by AWS Academy.
- SPCON Project idea Submission - Runner.
